Judge Finley E. Fogg, of West Liberty, and John A. Graham, of Lexington, were in town on business yesterday. R. J. McLin, of Hazel Green, and Floyd Day, of Winchester, were also here.

Hon. J. W. Stevenson, of Winchester, who was announced to speak in every precinct in Wolfe county last week as a champion of Democracy, after filling three engagements was called home by telegram from Lee City, and could not keep his other engagements. All who heard him compliment him as being one of the best orators of the Democratic party.

A joint discussion of the political issues of the closing campaign took place at the court house here yesterday between A. F. Byrd and Smith Hays, representing Democracy, and Capt. W. L. Hurst and S. M. Nickell, representing the Republicans. The audience was about equally divided between adherents of the two parties and the debate being a spirited one brought the issues clearly before the voters.

### Avoid Slang.

Young people should acquire the habit of correct speaking and writing, and abandon as early as possible any use of slang words and phrases. The longer you put this off, the more difficult the acquirement of correct language will be; and if the golden age of youth, the proper time for the acquisition of language, be passed in its abuse, the unfortunate victim will most probably be doomed to talk slang for life. You have merely to use the language which you read, instead of the slang you hear to form a taste in agreement with the speakers and poets in the country.

ANON.

### Encourage Him to Say "We."

Don't laugh at a boy who magnifies his place. You may see him coming from the post office with a big bundle of his employer's letters, which he displays with as much pride as if they were his own. He feels important, and looks it, and is proud of his place. He is attending to business. He likes to have the world know that he is working for a busy concern. The boy who says "we" identifies himself with the concern, its interests are his. He sticks up for its credit and reputation. He takes pleasure in his work and hopes to say we are in earnest. The boy will reap what he sows if he keeps his grit and sticks to his job. You may take off your hat to him as one of the future solid men of the town. Let his employer do the right thing by him; check him kindly if he shows signs of being too big for his place, counsel him as to his habits and associates, and occasionally show him a pleasant prospect of advancement. A little pride does an honest boy a heap of good. Good luck to the boy who says "we."

An exchange says: Small men with small purposes do not help to make a town lively and progressive. The man who never contributes to public enterprise or voluntarily assists in supporting any of the public enterprises is not worth coaking to remain in a town, and should be decided to move out it is always a matter of congratulation. It's units and not mere ciphers that count for something. "Be a unit."

## How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat?

Do you have shortness of breath, weak or hungry spells, fainting, smothering or choking spells, palpitation, fluttering, pains around the heart, in side and shoulders or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance. Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and dizziness, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to lie propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for Dr. Miles' Heart Cure I would now be in my grave."

L. T. CURTIS, Wilmore, Ky.  
Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

## ANNOUNCEMENTS.

**DYER** —We are authorized to announce Geo. P. Dyer as a candidate for the office of Jailer of Wolfe County, subject to the action of the Democratic party.

The following dispassionate comparison of Kentucky with other Southern States, which was recently made in an article on "Educational Progress of the South," in School Science and Mathematics, of Chicago, is of interest to all Kentuckians:

"The splendid educational progress of the Southern States during the last few years has never been equaled by any other people in the history of mankind, and is an index to the enthusiastic interest which has been, and is being aroused among the people of this region in all matters pertaining to thoroughness of education and the elevation of intellectual life and ideals.

"It is most encouraging to know that the improvement has begun at the foundation of our educational system, with public schools, and that it forms therefore a permanent basis from which to build. New school houses have been erected, school terms have been lengthened, laws governing child labor and compelling attendance in school have been enacted, better training for teachers has been provided in State Normal Schools, and new sources of revenue have been opened up to supply funds to carry the work to an immediately successful issue.

"This elevation of the character of the work done in the public schools must naturally be felt in the high schools, which are being multiplied in practically every Southern State. A higher grade of work can be established and maintained. It is possible therefore to strengthen the college curriculum and increase the efficiency of every higher institution of learning in proportion as the character of the work in each unit of the system is elevated.

"So far Kentucky has had but a very small part in this forward movement, as compared with the splendid achievements of the Carolinas, Alabama, Georgia, Mississippi and Texas. Nevertheless, some things have been done to improve conditions—the length of the school term has been increased from five to six months; State Normal Schools have been established at Richmond and at Bowling Green; school improvement leagues have been organized, and most important of all, perhaps, the conditions now obtaining in the State are being investigated and the truth made known to every citizen of the Commonwealth. Much of what has been done we owe directly to the efforts of the enlightened women of Kentucky, not to the wisdom of its legislators.

"It is hoped that public opinion, which is now more fully aroused, may sweep Kentucky onward into the full current of educational progress, and make it, as in its earlier history, the first, rather than well nigh the last State in the Union in the achievement of truly high standards and ideals of education."

## DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root and the address, Birmingham, N. Y. on every bottle.

## The Cost of Printing a Paper.

Very few people comparatively have any adequate idea of the immense cost of producing a modern daily newspaper, particularly in the large cities of the country. Some authentic figures on the subject have recently been made public and will doubtless occasion surprise to the uninformed. The "composition" (printers' weekly pay roll) for instance on the Baltimore American is \$2,000; on the Boston Globe, \$4,200; on the Globe-Democrat, \$3,000, and on the New York Herald, \$4,000, and on other papers in proportion. Bills for special telegrams are another big item of expense. On the Chicago Herald a few years ago they run to \$4,500 a month; St. Louis Globe-Democrat, \$12,000; San Francisco Examiner, \$8,000; Boston Herald, \$6,000, and St. Louis Republic, \$4,000. Then there is the white paper bill which is greater than the others combined. On the New York World it is said to run to \$700,000 per year, and on the New York American about the same; on the Chicago News about \$250,000, and on the Boston Globe and Herald about \$350,000 each; on the Enquirer about \$300,000, and on many other papers it runs from \$100,000 to a quarter of a million every twelve months.

## Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

## Value of the Hen.

Consider what the hen does when she is working, now that her strike season is on and she clamors for rations. The market value of "Biddy" is about 25 cents and the value of her daily produce 2 cents, or one-tenth part of her own worth. True, her career is short, but long enough to earn her value many times over, and that cannot be said of some in this world who have great pretensions to usefulness.

### Calloway Sebastian Fatally Shot.

In a difficulty at Lee City Tuesday Calloway Sebastian was shot by Wellie Arnett, and it is thought fatally wounded. Particulars are meagre, but as we hear them are as follows: Kelly Arnett pulled his knife on Sebastian and made for him when Sebastian attempted to pull his pistol and accidentally discharged it, the bullet passing through his coat and lodging in the counter of Rose's store, where the trouble occurred. At the same moment Wellie Arnett, a brother of Kelly, pulled his pistol and shot Sebastian, the bullet breaking his left arm, entering his side, passing just behind the heart and lodging on the right side some where. Dr. A. C. Nickell was 'phoned for and did what he could to relieve the patient's pain but did not probe for the bullet. Sebastian has been conscious all the while and yesterday morning was said to better with a little hope of recovery. Arnett, who did the shooting, is the man who killed the pedler in Magoffin county, for which he is now under bond. He was arrested and taken to Campton jail just after he shot Sebastian.

Quite an enjoyable day was spent at the home of Uncle Murriel Tyler, of Consolation Friday, it being the birthday of Mrs. Tyler. A quilting was given and a dinner such as has never been seen in our mountains before. 'Twas more of a family reunion, as all the children were present. However, a few special friends were invited, among those from town being the following: Mesdames Albert Dye, Sherman Elam and George Dyer. The ladies say it was an occasion long to be remembered owing to the many jolly jokes told by Uncle "Busby," the sumptuous dinner, and, in fact, the general pleasure of the day, such as one finds only in ideal homes like Mrs. Tyler's.

Hon. W. O. Mize and wife left yesterday for Lexington, where they will spend a few days. Then they will go to Memphis, Tenn., for a few days, after which they go to Lake county, Florida, where they expect to meet their son Carl, as he starts from Newport, Tenn., for Florida about the time they reach Memphis.

Mr. Bicknell and wife, of Berea, were here a few days of last week and the first of this. Incidentally we learn that he contemplates locating here, and in event he does he will preach for some of the Christian churches in this community.

### A Big Timber Deal.

R. J. McLin, as special commissioner for the estate of J. T. Day, on Monday sold all the timber, except the locust, which was reserved, on a boundary of 1,141 acres of land to John A. Graham & Co., of Lexington, for \$31,000. The Graham Co. furnish wagon factories with the wood work for the building of a wagon, or nearly all of it. In this business, together with the small parts they furnish to chair factories, they are able to and do use up nearly every scrap of timber. Some idea of how close they cull it may be had from a remark a gentleman made who looked over their field. He said: "Nothing gets away from the Grahams but the sawdust, and they burn lots of that for fuel." But they got a fine lot of timber, especially white oak. And Mr. McLin is to be congratulated upon the fine sale made, when it is considered that the land and locust on it still belongs to Mr. Day. Ten years ago he paid \$5,400 for the land and later sold from it 12,000 worth of poplar.

### He Fought at Gettysburg.

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out a lot of money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alterative and body builder; sure cure for lame back and weak kidneys. Guaranteed by leading dealers of Wolfe county.

Cert Pieratt on Friday showed us three ears of white corn raised on Henry Pieratt's Madison county farm that weighed five pounds. We didn't measure them but judge they average about eight inches in length and the circumference is apparently equal to the length. The cob would make a capacious pipe, and were Mr. Pieratt in proximity to a cob-pipe factory he would have no trouble to dispose of all he can produce.

### Taken By Mistake.

From Mt. Sterling stock yards, Monday, Oct. 21, one pair of saddle pockets bearing stock yards check No. 39, containing Powell county tax books and other official business. Finder will be liberally rewarded by return to Mt. Sterling Stock Yards, Mt. Sterling, Ky. STOCK YARDS CO.

The Campton-Hazel Green-Lee City telephone is now at the Cecil-Long Millinery. Both 'phones being in the same building and under same management is a great convenience, and the patrons will be sure to appreciate it.

The U. D. Society Friday night proved to be a perfect success, with a program enjoyed by all. We hope the U. D.'s will soon give another entertainment, since they show what girls and boys of our school can do.

Misses Fannie Osborn and Mabel Oldfield, of Spencer, who were visiting W. T. Caskey and wife, on Thursday last called to see us print the paper but were too late as the press work was done in the morning.

## ONE DOLAR BUYS "The Mountain People of Kentucky."

This popular book, which is now in its fourth edition, will for a limited time be sold for \$1.00 the copy, postage prepaid to any point in the country. Press and people are loud in praise of it, and patriotism prompts many to buy it. Why not you? You will want it for your children.

No better testimony to the worth and success of that most admirable work done for the Kentucky mountaineers may be found than this book by Wm. H. Haney a mountain boy. Mr. Haney is 23 years old, he was born in Morgan County and is an excellent example of self reliance typical of his sturdy race. He has conquered difficulties of poverty and other hampering circumstances, defraying the expense of his own education by the work of his hands while he was at Hazel Green Academy, Berea and Kentucky State College. Meantime he has purchased a home for his father and mother, has written this book—and again it may be repeated that he is only in his twenty-fourth year.

Two purposes seem to animate the pages of this book. To describe mountain life as it actually is, and to correct the wrong impressions of it others have striven to fasten on the public. Mr. Haney gives an historical sketch of the mountain people, attributing to inherited traits and the Kentucky environment the characteristics that distinguish them. Social conditions, Feuds, Industries, Education, Politics, Religion and the "Outlook," successfully afford Mr. Haney subjects for interesting discussion. He has known mountain life in its earlier conditions as well as in recent years when conditions have been somewhat improved, great as is still the need for more improvement and for earnest help from the outside world beyond the mountains. Though, indeed one of the wisest things Mr. Haney says is that it is not only help from beyond the mountains that is needed. As he suggests, that if the mountain people who have had the benefit of education will give some of their lives to those of their blood whom they understand better than alien teachers could do, this will be a decided gain for the mountain communities.

Mr. Haney writes in a direct style, in good English that reflects credit both on his own industry and his teachers. He is intelligent, sympathetic, optimistic and loyal in his considerations of the mountain people. He recognizes the need for industrial improvements, the teaching of scientific farming and other immediate needs as well as the higher needs of these people who offer such a splendid challenge to the worker in sociology, education and religion.—Courier-Journal.

## THE HERALD.

### Try the Shoe on the Other Foot.

We presume that some people think newspaper men are persistent dunners. Let a farmer place himself in a similar position and see if he would not do the same. Suppose that he raises a thousand bushels of corn, and his neighbor should come and buy, and the price was one dollar or less, and says, "I will pay the amount in a few days." As the farmer does not want to be small about the matter, he says, "All right." Another comes the same way, and another, until the whole thousand bushels of corn is rusted to a thousand different people and no one of the different persons concerns himself about it, for it is a small amount they owe the farmer and of course that will not help him any. He does not realize that the farmer has frittered away his entire crop of corn, and that its value is due in a thousand little dribbles, and that he is seriously embarrassed in his business, because his debtors treat it as a little matter. But if all would pay him promptly, which they could as well as not, it would be a large sum to the farmer, and enable him to carry on his business without difficulty.

### A Card.

To the Voters of Wolfe County:  
Having been solicited by Democrats from the different precincts of the county to make the race for Sheriff for the next term, I take this method of announcing myself a candidate for said office subject to the will and action of the Democratic primary to be held some time in 1908. This is the first time that I have ever announced as a candidate for any office, but ever since I became twenty-one years of age have been found in the ranks of the party fighting for the success of the principles of the party, which are dear to the heart of every true Democrat, and when the nominees have been selected by the party I have spent both my time and money in securing their election. I ask all voters to consider my candidacy, and if I am nominated and elected I will devote my time and attention to the duties of said office, and that the door of said office will be open during all business hours of the day to transact any business that may come to said office. Soliciting your support, and with best wishes for the "Great Common People," I remain yours, for success,  
ROY SMITH.

Young man, let us give you the benefit of our observation. We have noticed that at least nine-tenths of the young men who have been before courts for misdemeanors are those who take no interest whatever in education, seldom read a newspaper, and are always ready to make fun of other young men who use correct language and try to be somebody. It comes natural to them to discourage the studious and ambitious young men of their acquaintance. Their minds run toward dirty stories, midnight epiree and bad company. This in a short time means trouble, a sheriff's invitation to attend court, and a fine or term in jail.

### A Significant Prayer.

"May the Lord help you make Bucklen's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. "It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c. at all the leading dealers in Wolfe county.

Among those who attended the county court at Campton Monday, and incidentally the speaking from here, we note R. J. McLin and C. F. Kash. The former sold a big boundary of timber as special commissioner, and "Doc" probably went over to hear some good Democratic doctrine expounded by Mr. Stevenson and other eloquent speakers.
